Brian was my husband, best friend and partner in life. We were so lucky to have found each other later in life. He was a generous person who cared deeply for everyone. I was honored and blessed to have the time with him that I did. I will always love him.

I just learned of Brian's passing today. He was one of my very best friends from my years at Transylvania University. I will forever cherish the great times we shared together. For me, Brian was always funny, smart, genuine, and easy to relate to. He was well thought of and liked by those who came to know him. He made great contributions to the Delta Sigma Phi Fraternity and to the Transylvania University community. I regret that I had lost contact with Brian and had not spoken with him in several years. That was my loss. My thoughts are with his family. Please know that his fraternity brother's from Transylvania University in the mid-1980's will be very saddened to learn of his passing. He was a very special and talented person. Steve Burton Transylvania University Class of 1986
